

Smart Sand, Inc. Announces Union Pacific Railroad Expansion

April 6, 2017

THE WOODLANDS, Texas, April 06, 2017 (GLOBE NEWSWIRE) -- Smart Sand, Inc. (NASDAQ:SND) (the "Company") announced today that based on increasing demand for the Company's premier Northern White raw frac sand, Smart Sand plans to expand its rail siding and transload facility on the Union Pacific network in Byron Township, Wisconsin to allow unit train shipments from this facility. The expansion is expected to be completed in approximately six months. Additionally, the Company is evaluating other locations along the Union Pacific network within the operating basins to develop additional unit train capable transload facilities.

"We are excited about this new opportunity with Union Pacific," stated Charles Young, Chief Executive Officer of Smart Sand. "The expansion of our Byron transload facility to be unit train capable, positions us to take full advantage of the Union Pacific rail network to provide competitive and efficient transportation services to our customers in all operating basins which Union Pacific serves."

Forward-looking Statements

This release contains forward-looking statements within the meaning of the federal securities laws. Statements that are predictive in nature, that depend upon or refer to future events or conditions or that include the words "believe," "expect," "anticipate," "intend," "estimate" and other expressions that are predictions of or indicate future events and trends and that do not relate to historical matters identify forward-looking statements. Our forward-looking statements include statements about our business strategy, our industry, our future profitability, our expected capital expenditures and the impact of such expenditures on our performance, the costs of being a publicly traded corporation, our anticipated financial flexibility and our capital programs.

A forward-looking statement may include a statement of the assumptions or bases underlying the forward-looking statement. We believe that we have chosen these assumptions or bases in good faith and that they are reasonable. Factors that could cause our actual results to differ materially from the results contemplated by such forward-looking statements include, but are not limited to (i) large or multiple customer defaults, including defaults resulting from actual or potential insolvencies, (ii) the level of production of crude oil, natural gas and other hydrocarbons and the resultant market prices of crude oil, natural gas, natural gas liquids and other hydrocarbons, (iii) changes in general economic and geopolitical conditions; (iv) competitive conditions in our industry, (v) changes in the long-term supply of and demand for oil and natural gas, (vi) actions taken by our customers, competitors and third-party operators, (vii) changes in the availability and cost of capital, (viii) our ability to successfully implement our business plan, (ix) our ability to complete growth projects on time and on budget, (x) the price and availability of debt and equity financing (including changes in interest rates), (xi) changes in our tax status, (xii) technological changes, (xiii) operating hazards, natural disasters, weather-related delays, casualty losses and other matters beyond our control, (xiv) the effects of existing and future laws and governmental regulations (or the interpretation thereof), (xv) failure to secure or maintain contracts with our largest customers or non-performance of any of those customers under the applicable contract, (xvi) the effects of future litigation, and such other factors discussed or referenced in the "Risk Factors" section of the prospectus (the "Prospectus"), filed with the U.S. Securities and Exchange Commission, relating to our recently completed IPO.

You should not place undue reliance on our forward-looking statements. Although forward-looking statements reflect our good faith beliefs at the time they are made, forward-looking statements involve known and unknown risks, uncertainties and other factors, including the factors described under "Risk Factors" in the Prospectus, which may cause our actual results, performance or achievements to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements. You should also carefully consider the statements under the heading "Forward-Looking Statements" in the Prospectus. Any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, unless required by law.

About Smart Sand:

Smart Sand, Inc. is a pure-play, low-cost producer of high-quality Northern White raw frac sand, which is a preferred proppant used to enhance hydrocarbon recovery rates in the hydraulic fracturing of oil and natural gas wells. Northern White raw frac sand, which is found predominantly in Wisconsin and limited portions of Minnesota and Illinois, is highly valued by oil and natural gas producers as a preferred proppant due to its favorable physical characteristics.
