

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended September 30, 2022

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Transition Period from ___ to ___

Commission file number 001-37936

SMART SAND, INC.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

1725 Hughes Landing Blvd, Suite 800

The Woodlands, Texas 77380

(Address of principal executive offices)

45-2809926

(I.R.S. Employer Identification Number)

(281) 231-2660

(Registrant's telephone number)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.001 per share	SND	Nasdaq Global Select Market

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated Filer Smaller reporting company Emerging Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

Number of shares of common stock outstanding, par value \$0.001 per share, as of November 1, 2022: 45,276,607

Certain Definitions

The following definitions apply throughout this quarterly report unless the context requires otherwise:

“We”, “Us”, “Company”, “Smart Sand” or “Our”	Smart Sand, Inc., a company organized under the laws of Delaware, and its subsidiaries.
“shares”, “stock”	The common stock of Smart Sand, Inc., nominal value \$0.001 per share.
“ABL Credit Facility”, “ABL Credit Agreement”, “ABL Security Agreement”	The five-year senior secured asset-based lending credit facility (the “ABL Credit Facility”) pursuant to: (i) an ABL Credit Agreement, dated December 13, 2019, between the Company and Jefferies Finance LLC, as amended from time to time (as amended, the “ABL Credit Agreement”); and (ii) a Guarantee and Collateral Agreement, dated December 13, 2019, between the Company and Jefferies Finance LLC, as agent, as amended from time to time (as amended, the “Security Agreement”).
“Oakdale Equipment Financing”, “MLA”	The five-year Master Lease Agreement, dated December 13, 2019, between Nexseer Capital (“Nexseer”) and related lease schedules in connection therewith (collectively, the “MLA”). The MLA is structured as a sale-leaseback of substantially all of the equipment at the Company’s mining and processing facility located near Oakdale, Wisconsin. The Oakdale Equipment Financing is considered a lease under article 2A of the Uniform Commercial Code but is considered a financing arrangement (and not a lease) for accounting or financial reporting purposes.
“Exchange Act”	The Securities Exchange Act of 1934, as amended.
“Securities Act”	The Securities Act of 1933, as amended.
“FASB”, “ASU”, “ASC”, “GAAP”	Financial Accounting Standards Board, Accounting Standards Update, Accounting Standards Codification, Accounting Principles Generally Accepted in the United States, respectively.

(UNAUDITED)

NOTE 1 — Organization and Nature of Business & Market Update

Organization and Nature of Business

The Company was incorporated in July 2011 and is headquartered in The Woodlands, Texas. The Company primarily operates as a fully integrated frac and industrial sand supply and services company. The Company offers complete mine to wellsite proppant supply and logistics solutions to our frac sand customers. These operations include the excavation, processing and sale of sand, or proppant, for use in hydraulic fracturing operations for the oil and natural gas industry. The Company also offers proppant logistics and wellsite storage solutions through its SmartSystems™ products and services. In late 2021, the Company created its Industrial Products Solutions (“IPS”) business in order to diversify its customer base and markets it serves by offering sand to customers for industrial uses, such as glass, foundry, building products, filtration, geothermal, renewables, ceramics, turf & landscape, retail, and recreation.

The Company commenced mining operations at its Oakdale, Wisconsin facility in July 2012. Through multiple expansions at Oakdale and the acquisition of the Utica, Illinois facility in September 2020, the Company has current annual processing capacity of approximately 7.1 million tons. With the acquisition of the Blair, Wisconsin mine and processing facility in March 2022, which is currently idled, we have the ability to expand to approximately 10.0 million tons should the Company decide to bring the Blair facility online.

The Company also has several in-basin rail terminals. The Company acquired rights in 2018 to operate a unit train capable transloading terminal in Van Hook, North Dakota to service the Bakken Formation in the Williston Basin. In 2020, the Company, as part of its acquisition of the Utica, Illinois facility, obtained rights to use a rail terminal located in El Reno, Oklahoma. In September 2021, the Company acquired the rights to construct and operate another transloading terminal in Waynesburg, Pennsylvania to service the Appalachian Basin, including the Marcellus and Utica Formations, which became operational in January 2022.

The Company provides complete logistics solutions through its mine sites and transload facilities with direct access to four Class I rail lines, and has the ability to access all Class I rail lines within the United States and Canada.

The Company provides proppant storage and management solutions through its SmartSystems products and services under which it offers various solutions that create efficiencies, flexibility, enhanced safety and reliability for customers by providing the capability to unload, store and deliver proppant at the wellsite, as well as the ability to rapidly set up, takedown and transport the entire system. The SmartDepot™ silo system includes passive and active dust suppression technology, along with the capability of a gravity-fed operation. The self-contained SmartPath™ transloader, is a mobile sand transloading system designed to work with bottom dump trailers and features a drive over conveyor, surge bin, and dust collection system. Rapid deployment trailers are designed for quick setup, takedown and transportation of the entire SmartSystem, and they detach from the wellsite equipment, which allows for removal from the wellsite during operation. A proprietary software program, the SmartSystem Tracker™ allows customers to monitor silo-specific information, including location, proppant type and proppant inventory. We believe that our SmartSystems reduce trucking and related fuel consumption for our customers, helping them meet their goals to reduce their carbon footprint in their daily operations.

NOTE 2 — Summary of Significant Accounting Policies

The information presented below supplements the complete description of our significant accounting policies disclosed in our 2021 Form 10-K, filed with the Securities and Exchange Commission (“SEC”) on March 8, 2022.

Basis of Presentation and Consolidation

The accompanying unaudited quarterly condensed consolidated financial statements (“interim statements”) of the Company are presented in accordance with the rules and regulations of the SEC for quarterly reports on Form 10-Q and therefore do not include all the information and notes required by GAAP. In the opinion of management, all adjustments and disclosures necessary for a fair presentation of these interim statements have been included. All adjustments are of a normal recurring nature. The results reported in these interim statements are not necessarily indicative of the results that may be reported for the entire year. The consolidated balance sheet as of December 31, 2021 was derived from the audited consolidated

SMART SAND, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT PER SHARE DATA)
(UNAUDITED)

financial statements as of and for the year ended December 31, 2021. These interim statements should be read in conjunction with the Company's consolidated financial statements for the year ended December 31, 2021.

Use of Estimates

The preparation of interim statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates used in the preparation of these financial statements include, but are not limited to: impairment considerations of assets, including intangible assets, fixed assets, and inventory; estimated cost of future asset retirement obligations; fair value of acquired assets and assume liabilities; recoverability of deferred tax assets; inventory reserve; and the collectability of receivables; and certain liabilities.

Actual results could differ materially from management's best estimates as additional information or actual results become available in the future, and those differences could be material. The decreases in demand related to the coronavirus ("COVID-19") pandemic in 2020 and 2021 and the ongoing conflict in Ukraine have caused dramatic swings in oil and natural gas prices and significant volatility in the oilfield service sector. Additionally, future economic performance is uncertain due to current high inflation and other economic concerns. The Company is currently unable to estimate the impact of these events on its future financial position and results of operations. Therefore, the Company can give no assurances that these events will not have a material adverse effect on its financial position or results of operations.

Employee Retention Credit

The Company qualified for federal government assistance through employee retention credit provisions of the Consolidated Appropriations Act of 2021. As of September 30, 2022 and December 31, 2021, the Company included \$2,710 and, \$4,676 respectively, in prepaid expenses and other current assets on its consolidated balance sheets related to receivables for the employee retention credits. The calculation of the credit was based on employees continued employment and represents a portion of the wages paid to them. For income tax purposes, the credit will result in decreased expense related to the wages it offsets in the period received.

Recent Accounting Pronouncements

There are no recent accounting pronouncements that materially affect the financial statements of the Company.

NOTE 3 — Acquisition

Asset Acquisition Blair Facility

On March 4, 2022, the Company entered into a Membership Interest Purchase Agreement (the "Purchase Agreement") with Hi-Crush Inc., a Delaware corporation ("HCR"), and Hi-Crush Blair LLC, a Delaware limited liability company and wholly-owned subsidiary of HCR ("Blair"), pursuant to which the Company acquired all of the issued and outstanding limited liability company interest of Blair from HCR for aggregate cash consideration of \$6,450, subject to customary purchase price adjustments as set forth in the Purchase Agreement (the "Transaction").

The primary assets of Blair consist of an idle frac sand mine and related processing facility located in Blair, Wisconsin. The Blair facility, once operational, will have approximately 2.9 million tons of total annual processing capacity and contains an onsite, unit train capable rail terminal with access to the Class 1 Canadian National Railway.

The Company accounted for this transaction as an asset acquisition based on an evaluation of the guidance in ASC 805. The Company determined that there was not a substantive process in place that generates outputs that can be sold to a customer, and therefore the acquisition did not meet the definition of a business. The Company recognized identifiable assets acquired on a relative fair value basis. All assets acquired are allocated to property, plant and equipment, net on the balance sheet as of

SMART SAND, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT PER SHARE DATA)
(UNAUDITED)

March 31, 2022. The Company also recorded an increase to its asset retirement obligations and a corresponding increase in purchases of property plant and equipment in the amount of \$8,281 for the nine months ended September 30, 2022.

The table below presents the calculation of the total purchase consideration:

Base price consideration	\$	6,450
Net working capital adjustments and capitalized costs		97
Total purchase consideration	\$	<u>6,547</u>

NOTE 4 — Inventory

Inventory consisted of the following:

	September 30, 2022	December 31, 2021
Raw material	\$ 728	\$ 293
Work in progress	5,871	3,082
Finished goods	8,815	7,269
Spare parts	5,204	4,380
Total inventory	<u>\$ 20,618</u>	<u>\$ 15,024</u>

NOTE 5 — Property, Plant and Equipment, net

Net property, plant and equipment consisted of:

	September 30, 2022	December 31, 2021
Machinery, equipment and tooling	\$ 34,411	\$ 30,813
SmartSystems	27,654	27,343
Vehicles	3,234	3,066
Furniture and fixtures	1,345	1,325
Plant and building	200,373	199,958
Real estate properties	6,523	6,496
Railroad and sidings	33,622	27,703
Land and land improvements	40,455	35,652
Asset retirement obligation	28,818	20,536
Mineral properties	7,442	7,442
Deferred mining costs	2,455	2,455
Construction in progress	9,708	9,574
	<u>396,040</u>	<u>372,363</u>
Less: accumulated depreciation and depletion	128,830	109,898
Total property, plant and equipment, net	<u>\$ 267,210</u>	<u>\$ 262,465</u>

Depreciation expense was \$6,498 and \$6,111 for the three months ended September 30, 2022 and 2021, respectively, and \$19,309 and \$18,325 for the nine months ended September 30, 2022 and 2021, respectively.

ABL Credit Facility

On December 13, 2019, the Company entered into a \$20,000 five-year senior secured asset-based credit facility with Jefferies Finance LLC. The available borrowing amount under the ABL Credit Facility as of September 30, 2022 was \$20,000 and is based on the Company's eligible accounts receivable and inventory, as described in the ABL Credit Agreement. As of September 30, 2022, there was \$6,000 outstanding under the ABL Credit Facility, \$1,000 letters of credit and \$13,000 was available to be drawn. As of September 30, 2022 and December 31, 2021, the Company was in compliance with all financial covenants.

Oakdale Equipment Financing

On December 13, 2019, the Company received net proceeds of \$23,000 in an equipment financing arrangement with Nexseer. Substantially all of the Company's mining and processing equipment at its Oakdale facility are pledged as collateral under the Oakdale Equipment Financing. The Oakdale Equipment Financing bears interest at a fixed rate of 5.79%.

Notes Payable

The Company has entered into various financing arrangements, primarily to finance its manufactured wellsite proppant storage solutions equipment. Upon completion of the equipment manufacturing, title to the subject equipment passes to the financial institutions as collateral. All notes payable bear interest at rates between 4.00% and 7.49%.

NOTE 8 — Leases

Lessee

The operating and financing components of the Company's right-of-use assets and lease liabilities on the consolidated balance sheets were as follows:

SMART SAND, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT PER SHARE DATA)
(UNAUDITED)

	Balance Sheet Location	September 30, 2022	December 31, 2021
Right-of-use assets			
Operating	Operating right-of-use assets	\$ 28,418	\$ 29,828
Financing	Property, plant and equipment, net	161	262
Total right-of use assets		<u>\$ 28,579</u>	<u>\$ 30,090</u>

NOTE 10 — Revenue

Disaggregation of Revenue

The following table presents the Company's revenues disaggregated by type and percentage of total revenues for the periods indicated.

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2022		2021		2022		2021	
	Revenue	Percentage of Total Revenue	Revenue	Percentage of Total Revenue	Revenue	Percentage of Total Revenue	Revenue	Percentage of Total Revenue
Sand sales revenue	\$ 66,663	93 %	\$ 31,343	91 %	\$ 172,063	94 %	\$ 83,291	91 %
Shortfall revenue	2,681	4 %	2,680	8 %	4,596	3 %	4,421	5 %
Logistics revenue	2,248	3 %	456	1 %	5,252	3 %	3,856	4 %
Total revenue	\$ 71,592	100 %	\$ 34,479	100 %	\$ 181,911	100 %	\$ 91,568	100 %

The Company recorded \$16,270 of deferred revenue on the consolidated balance sheet as of December 31, 2021, of which \$8,819 has been recognized in the nine months ended September 30, 2022. Of the remaining amount, the Company expects to recognize \$938 through December 31, 2022 and the remainder through 2023.

NOTE 11 — Earnings Per Share

Basic net income per share of common stock is computed by dividing net income attributable to common stockholders by the weighted-average number of shares of common stock outstanding during the period, excluding the dilutive effects of restricted stock. Diluted net income per share of common stock is computed by dividing the net income attributable to common stockholders by the sum of the weighted-average number of shares of common stock outstanding during the period plus the potential dilutive effects of shares of restricted stock outstanding during the period calculated in accordance with the treasury stock method, although shares of restricted stock are excluded if their effect is anti-dilutive. The number of shares underlying equity-based awards that were excluded from the calculation of diluted earnings per share as their effect would be anti-dilutive was 2,625 for the three months ended September 30, 2022. Other periods presented below are in periods with a net loss and there was no difference between basic and diluted net loss per share of common stock. The following table reconciles the weighted-average common shares outstanding used in the calculation of basic net (loss) income per share to the weighted average common shares outstanding used in the calculation of diluted net income per share.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2022	2021	2022	2021
Weighted average common shares outstanding	42,522	41,850	42,265	41,743
Assumed conversion of restricted stock	2	—	—	—
Diluted weighted average common stock outstanding	42,524	41,850	42,265	41,743

NOTE 12 — Stock-Based Compensation

Equity Incentive Plan

In November 2016, in connection with its initial public offering, the Company adopted the 2016 Omnibus Incentive Plan ("2016 Plan") which provides for the issuance of Awards (as defined in the 2016 Plan) of up to a maximum of 3,911 shares of the Company's common stock to employees, non-employee members of the Company's board of directors and consultants of the Company. On April 3, 2020, the Company's board of directors adopted an amendment to the 2016 Plan to increase the

SMART SAND, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT PER SHARE DATA)
(UNAUDITED)

available shares of common stock authorized for issuance by an additional 2,088 shares. On July 27, 2021, the Company's board of directors authorized 231 shares currently held in treasury stock for issuance under the 2016 Plan. On April 22, 2022, the board of directors adopted an amendment to the 2016 Plan to increase the number of shares of common stock authorized for issuance by an additional 3,900 shares.

During the nine months ended September 30, 2022 and 2021, 879 and 1,982 shares of restricted stock were issued under the 2016 Plan, respectively. The grant date fair value per share of all the outstanding restricted stock was \$1.78 - \$4.34. The shares vest over one to four years from their respective grant dates. For equity awards issued under the 2016 Plan, the grant date fair value was either the actual market price of the Company's shares or an adjusted price using a Monte Carlo simulation for awards subject to the Company's performance as compared to a defined peer group. The Company recognized, in operating expenses and cost of goods sold on the condensed consolidated statement of operations, \$808 and \$879 of compensation expense for the restricted stock during the three months ended September 30, 2022 and 2021, respectively. The Company recognized, in operating expenses and cost of goods sold on the condensed consolidated statement of operations, \$2,436 and \$2,131 of compensation expense for the restricted stock during the nine months ended September 30, 2022 and 2021, respectively. There is no impact to the cash flows of the Company related to stock-based compensation expense. At September 30, 2022, the Company had unrecognized compensation expense of \$6,580 related to granted but unvested stock awards, which is to be recognized as follows:

Remainder of 2022	\$	748
2023		2,753
2024		1,915
2025		1,002
2026		162
Total	\$	<u>6,580</u>

The following table summarizes restricted stock activity under the Plans from December 31, 2021 through September 30, 2022:

	Number of Shares	Weighted Average
Unvested, December 31, 2021	3,151	\$ 3.06
Granted	879	\$ 3.56
Vested	(783)	\$ 3.74
Forfeited	(587)	\$ 2.68
Unvested, September 30, 2022	<u>2,660</u>	<u>\$ 3.11</u>

Employee Stock Purchase Plan

Shares of the Company's common stock may be purchased by eligible employees under the Company's 2016 Employee Stock Purchase Plan in six-month intervals at a purchase price equal to at least 85% of the lesser of the fair market value of the Company's common stock on either the first day or the last day of each six-month offering period. Employee purchases may not exceed 20% of their gross compensation during an offering period.

NOTE 13 — Income Taxes

The Company calculates its interim income tax provision by estimating the annual expected effective tax rate and applying that rate to its ordinary year-to-date earnings or loss. In addition, the effect of changes in enacted tax laws, rates or tax status is recognized in the interim period in which the change occurs.

For the three months ended September 30, 2022 and 2021, the effective tax rate was approximately 23.6% and 2.3%, respectively, based on the annual effective tax rate net of discrete federal and state taxes. For the nine months ended September

SMART SAND, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT PER SHARE DATA)
(UNAUDITED)

30, 2022 and 2021, the effective tax rate was approximately 40.7% and 13.7%, respectively, based on the annual effective tax rate net of discrete federal and state taxes. For the three and nine months ended September 30, 2022 and 2021, the statutory tax rate was 21.0%. The computation of the effective tax rate includes modifications from the statutory rate such as income tax credits, tax depletion deduction, carrybacks, and state apportionment changes, among other items.

The Company has recorded a liability for uncertain tax positions included in its consolidated balance sheet as of September 30, 2022, related to its depletion deduction methodology, and a corresponding increase to the income tax expense on its condensed consolidated statement of operations. There was \$2,163 liability for uncertain tax positions as of December 31, 2021 and there was no material change for the nine months ended September 30, 2022.

As of September 30, 2022, the Company determined that it is more likely than not that it will not be able to fully realize the benefits of certain existing deductible temporary differences and has recorded a partial valuation allowance against the gross deferred tax assets, which is included in the deferred tax liabilities, long-term, net on its consolidated balance sheet, and a corresponding increase to the income tax expense on its condensed consolidated statement of operations. At December 31, 2021, the Company recorded a partial valuation allowance against the gross deferred tax assets on its consolidated balance sheet in the amount of \$1,574 and a corresponding increase to the income tax expense on its consolidated statements of operations and there was no material change for the three and nine months ended September 30, 2022.

The Company's federal income tax returns subsequent to 2017 remain open to audit by taxing authorities. The Company has not been informed that its tax returns are the subject of any audit or investigation by taxing authorities.

NOTE 14 — Concentrations

As of September 30, 2022 three customers accounted for 67% of the Company's total accounts receivable. As of December 31, 2021, 59% of the Company's total accounts receivable balance was with two customers.

During the three months ended September 30, 2022, 62% of the Company's revenues were earned from four customers. During the three months ended September 30, 2021, 50% of the Company's revenues were earned from three customers. During the nine months ended September 30, 2022, 65% of the Company's revenues were earned from four customers. During the nine months ended September 30, 2021, 68% of the Company's revenues were earned from four customers.

As of September 30, 2022, one vendor accounted for 10% of the Company's accounts payable. As of December 31, 2021, one vendor accounted for 19% of the Company's accounts payable.

During the three months ended September 30, 2022, two suppliers accounted for 37% of the Company's cost of goods sold. During the three months ended September 30, 2021, one supplier accounted for 23% of the Company's cost of goods sold. During the nine months ended September 30, 2022, two suppliers accounted for 33% of the Company's cost of goods sold. During the nine months ended September 30, 2021, one supplier accounted for 22% of the Company's cost of goods sold.

The Company's primary product is Northern White sand and its mining operations are limited to Wisconsin and Illinois. There is a risk of loss if there are significant environmental, legal or economic changes to these geographic areas of our mines, the oil and natural gas producing basins they serve, or the transportation routes between them.

NOTE 15 — Commitments and Contingencies

Litigation

We may be subject to various legal proceedings, claims and governmental inspections, audits or investigations arising out of our operations in the normal course of business, which cover matters such as general commercial, governmental and trade regulations, product liability, environmental, intellectual property, employment and other actions. Although the outcomes of these routine claims cannot be predicted with certainty, in the opinion of management, the ultimate resolution of these matters will not have a material adverse effect on our financial statements.

SMART SAND, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(UNAUDITED)

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis summarizes the significant factors affecting the consolidated operating results, financial condition, liquidity and cash flows of the Company as of and for the periods presented below. The following discussion and analysis should be read in conjunction with our unaudited condensed consolidated financial statements and related information contained herein and our audited financial statements as of December 31, 2021 contained in our Annual Report on Form 10-K. We use contribution margin, EBITDA, Adjusted EBITDA and free cash flow herein as non-GAAP measures of our financial performance. For further discussion of contribution margin, EBITDA, Adjusted EBITDA and free cash flow, see the section entitled "Non-GAAP Financial Measures." We define various terms to simplify the presentation of information in this Quarterly Report on Form 10-Q (this "Report"). All share amounts are presented in thousands.

Forward-Looking Statements

This discussion contains forward-looking statements that are based on the beliefs of our management, as well as assumptions made by, and information currently available to our management. Actual results could differ materially from those discussed in or implied by forward-looking statements as a result of various factors, including those discussed herein and in the section entitled "Risk Factors" in our Form 10-K for the year ended December 31, 2021. Our estimates and forward-looking statements are primarily based on our current expectations and estimates of future events and trends, which affect or may affect our business and operations. Although we believe that these estimates and forward-looking statements are based upon reasonable assumptions, they are subject to several risks and uncertainties and are made in light of information currently available to us. Important factors, in addition to the factors described in this Report, may adversely affect our results as indicated in forward-looking statements. You should read this Report and the documents that we have filed as exhibits hereto completely and with the understanding that our actual future results may be materially different from what we expect. The words "may," "will," "should," "could," "expect," "plan," "anticipate," "believe," "estimate," "predict," "intend," "potential," "might," "would," "continue" or the negative of these terms or other comparable terminology and similar words are intended to identify estimates and forward-looking statements. Estimates and forward-looking statements speak only as of the date they were made, and, except to the extent required by law, we undertake no obligation to update, to revise or to review any estimate and/or forward-looking statement because of new information, future events or other factors. Estimates and forward-looking statements involve risks and uncertainties and are not guarantees of future performance. As a result of the risks and uncertainties described above, the estimates and forward-looking statements discussed in this Report might not occur and our future results, level of activity, performance or achievements may differ materially from those expressed in these forward-looking statements due to, including, but not limited to, the factors mentioned above, and the differences may be material and adverse. Because of these uncertainties, you should not place undue reliance on these forward-looking statements.

Overview

The Company

We are a fully integrated frac and industrial sand supply and services company. We offer complete mine to wellsite proppant supply and logistics solutions to our frac sand customers. We produce low-cost, high quality Northern White sand, which is a premium sand used as proppant used to enhance hydrocarbon recovery rates in the hydraulic fracturing of oil and natural gas wells and for a variety of industrial applications. We also offer proppant logistics solutions to our customers through our in-basin transloading terminals and our SmartSystems™ wellsite storage capabilities. In late 2021, we created our Industrial Products Solutions ("IPS") business in order to diversify our customer base and markets we serve by offering sand for industrial uses. We market our products and services to oil and natural gas exploration and production companies, oilfield service companies, and industrial manufacturers. We sell our sand through long-term contracts or spot sales in the open market. We provide wellsite proppant storage solutions services and equipment under flexible contract terms custom tailored to meet the needs of our customers. We believe that, among other things, the size and favorable geologic characteristics of our sand reserves, the strategic location and logistical advantages of our facilities, our proprietary SmartDepot™ portable wellsite

SMART SAND, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(UNAUDITED)

storage silos and SmartPath™ transloader, access to all Class I rail lines, and the industry experience of our senior management team make us as a highly attractive provider of sand and logistics services.

We incorporated in Delaware in July 2011 and began operations at our Oakdale facility with 1.1 million tons of annual processing capacity in July 2012. We currently have 7.1 million tons of annual capacity at our Oakdale and Utica facilities with the ability to expand annual processing capacity to approximately 10.0 million tons of sand should we bring our recently acquired Blair facility online.

We directly control two in-basin transloading facilities and have access to third party transloading terminals in all operating basins. We operate a unit train capable transloading terminal in Van Hook, North Dakota to service the Bakken Formation in the Williston Basin. We operate this terminal under a long-term agreement with Canadian Pacific Railway to service the Van Hook terminal directly along with the other key oil and natural gas exploration and production basins of North America. In 2020, as part of our acquisition of the Utica, Illinois mining facility, we obtained rights to use a rail terminal located in El Reno, Oklahoma. In January 2022, we began operations at an additional unit train capable transloading terminal in Waynesburg, Pennsylvania to service the Appalachian Basin, including the Marcellus and Utica Formations. These terminals allow us to offer more efficient and sustainable delivery options to our customers. We have long-standing relationships with third party terminal operators that allow us access to all oil and natural gas exploration production basins of North America.

We also offer to our customers portable wellsite storage and management solutions through our SmartSystems products and services. Our SmartSystems provide our customers with the capability to unload, store and deliver proppant at the wellsite, as well as the ability to rapidly set up, takedown and transport the entire system. This capability creates efficiencies, flexibility, enhanced safety and reliability for customers. Through our SmartSystems wellsite proppant storage solutions, we offer the SmartDepot and SmartDepotXL™ silo systems, SmartPath transloader, and our rapid deployment trailers. Our SmartDepot silos include passive and active dust suppression technology, along with the capability of a gravity-fed operation. Our self-contained SmartPath transloader is a mobile sand transloading system designed to work with bottom dump trailers and features a drive over conveyor, surge bin, and dust collection system, and we believe the system has the ability to keep up with any hydraulic fracturing operation. Our rapid deployment trailers are designed for quick setup, takedown and transportation of the entire SmartSystem, and detach from the wellsite equipment, which allows for removal from the wellsite during operation. We have also developed a proprietary software program, the SmartSystem Tracker™, which allows our SmartSystems customers to monitor silo-specific information, including location, proppant type and proppant inventory. We believe that our SmartSystems reduce trucking and related fuel consumption for our customers, helping them meet their goals to reduce their carbon footprint in their daily operations.

In late 2021, we started our IPS business whereby we offer our sand to customers for various industrial purposes, such as glass, foundry, building products, filtration, geothermal, renewables, ceramics, turf & landscape, retail, and recreation. While we are still in the early stages of this business, we believe that as it grows, it will provide us with the ability to diversify our sales into more stable, consumer-driven products to help mitigate price volatility in the oil and gas industry.

Recent Acquisitions

On March 4, 2022, we entered into a Membership Interest Purchase Agreement (the “Purchase Agreement”) with Hi-Crush Inc., a Delaware corporation (“HCR”), and Hi-Crush Blair LLC, a Delaware limited liability company and wholly-owned subsidiary of HCR (“Blair”) pursuant to which we acquired all of the issued and outstanding limited liability company interest of Blair from HCR for aggregate cash consideration of approximately \$6.5 million, subject to customary working capital adjustments.

The primary assets of Blair consist of an idle frac sand mine and related processing facility located in Blair, Wisconsin. The Blair facility once operational, will have approximately 2.9 million tons of total annual processing capacity and contains an onsite, unit train capable rail terminal with access to the Class 1 Canadian National Railway.

Market Trends

Our historical results of operations and cash flows are not indicative of results of operations and cash flows to be expected in the future.

SMART SAND, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(UNAUDITED)

During most of 2020, demand for frac sand declined significantly as a result of decreased demand for oil and natural gas as a result of the ongoing effects of the coronavirus (“COVID-19”) pandemic, which caused a global decrease in all means of travel, the closure of borders between countries and a general slowing of economic activity worldwide. Activity in the oil and gas industry began to rebound in the fourth quarter of 2020 and through 2021 as the global distribution of COVID-19 vaccines ramped up and travel restrictions lessened. However, the prices of frac sand remained depressed during 2021 as supply remained out of balance with demand even though market activity was improving. Through the first nine months of 2022, supply and demand fundamentals have continued to improve and frac sand prices continued recovering from previous historic lows. The ongoing conflict in the Ukraine has contributed to dramatic swings in oil and natural gas prices and significant volatility in the oilfield service sector. Additionally, current high inflation and other economic factors could lead to a global economic recession that could have a negative impact on global oil and natural gas demand, which may lead to continued volatility in the oil field service sector. We cannot predict if positive pricing trends will continue or if sand prices will increase, decrease or stabilize.

Northern White sand, which is found predominantly in Wisconsin and limited portions of Minnesota, Illinois, and Missouri, is considered a premium proppant due to its favorable physical characteristics. While we believe that regional sand will continue to affect the demand for Northern White sand in some of the oil and natural gas producing basins in which we operate, we believe there will continue to be demand for our high-quality Northern White sand. In particular, we believe that Northern White sand has logistical advantages in the Appalachian basin, Bakken basin, the western basins of Colorado, Wyoming, and in Canada. We expect demand for our frac sand to continue to be supported by customers who are focused on long-term well performance and ultimate recovery of reserves from the oil and natural gas wells they are completing as well as those interested in the efficiency of their logistics supply chain and delivery of sand to the wellsite. Additionally, we believe market trends continue to support increased proppant usage per well drilled due to operator focus on well efficiencies through increasing lengths of drilling laterals, use of simul-fracking techniques and other well enhancement strategies. As the amount of sand per well continues to increase, we believe the delivery of sand to the operating basins by rail in bulk shipments to terminals in close proximity to drilling activity provides more sustainable and efficient delivery of sand to meet a customer’s long term proppant needs. Finally, we believe that the adoption of our SmartSystems in the marketplace, which has a smaller footprint on customer sites than other sand storage solutions, will allow us to sell more sand when packaged with our last mile solutions. We believe the combination of our high quality Northern White sand delivered in bulk to in basin terminals and ultimately delivered to the wellsite through our SmartSystems wellsite proppant storage solutions provides our customers efficient and sustainable sand supply to the wellsite that will reduce trucking and related fuel consumption for our customers, helping them to meet their goals to reduce their carbon footprint in their daily operations.

Demand in the IPS business is relatively stable as customers are spread over a wide range of industries including glass, foundry, building products, filtration, geothermal, renewables, ceramics, turf & landscape, retail, recreation and more. The IPS business is primarily influenced by macroeconomic drivers such as consumer demand and population growth. We began our diversification into the IPS business in late 2021 and we expect to see continued growth throughout North America.

OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(UNAUDITED)

GAAP Results of Operations

Three Months Ended September 30, 2022 Compared to Three Months Ended September 30, 2021

The following table summarizes our revenue and expenses for the periods indicated.

	Three Months Ended September 30,		Change	
	2022	2021	Dollars	Percentage
Revenues:				
Sand sales revenue	\$ 66,663	\$ 31,343	\$ 35,320	113 %
Shortfall revenue	2,681	2,680	1	— %
Logistics revenue	2,248	456	1,792	393 %
Total revenue	71,592	34,479	37,113	108 %
Cost of goods sold	60,163	36,526	23,637	65 %
Gross profit	11,429	(2,047)	13,476	658 %
Operating expenses:				
Salaries, benefits and payroll taxes	3,554	2,490	1,064	43 %
Depreciation and amortization	556	352	204	58 %
Selling, general and administrative	3,542	3,867	(325)	(8)%
Total operating expenses	7,652	6,709	943	14 %
Operating income (loss)	3,777	(8,756)	12,533	143 %
Other income (expenses):				
Interest expense, net	(411)	(467)	56	12 %
Other income	148	1,792	(1,644)	(92)%
Total other income (expenses), net	(263)	1,325	(1,588)	(120)%
Income (loss) before income tax expense (benefit)	3,514	(7,431)	10,945	147 %
Income tax expense (benefit)	831	(169)	1,000	592 %
Net income (loss)	\$ 2,683	\$ (7,262)	\$ 9,945	137 %

Revenues

Revenues were \$71.6 million for the three months ended September 30, 2022, during which time we sold approximately 1,110,000 tons of sand. Revenues for the three months ended September 30, 2021 were \$34.5 million, during which time we sold approximately 790,000 tons of sand. The key factors contributing to the increase in revenues for the three months ended September 30, 2022 as compared to the three months ended September 30, 2021 were as follows:

- Sand sales revenue increased from \$31.3 million for the three months ended September 30, 2021 to \$66.7 million or 113% for the three months ended September 30, 2022 as a result of an increase in total volumes sold of approximately 41% and higher average sale prices of our sand. Higher demand relative to supply for oil and natural gas has led to increased prices in oil and natural gas which we believe has led to increased demand for frac sand resulting in higher sand prices.
- Logistics revenue, which includes freight for certain mine gate sand sales, logistics services, and SmartSystems rentals, were approximately \$2.2 million for the three months ended September 30, 2022 compared to \$0.5 million for the three months ended September 30, 2021. The increase in logistics revenue was due to a higher utilization of our SmartSystems fleet.

SMART SAND, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(UNAUDITED)

Cost of Goods Sold

Cost of goods sold was \$60.2 million and \$36.5 million for the three months ended September 30, 2022 and 2021, respectively. The increase was primarily due to higher volumes sold in the current period and the related increase in production costs and freight costs that accompany higher volumes, along with higher labor and utilities costs.

Gross Profit

Gross profit was \$11.4 million for the three months ended September 30, 2022, compared to \$(2.0) million for the three months ended September 30, 2021. The increase in profitability for the three months ended September 30, 2022 as compared to the three months ended September 30, 2021 was primarily due to higher sales volumes and higher average sale prices of our sand relative to the cost to produce and deliver products to our customers.

Operating Expenses

Operating expenses were \$7.7 million and \$6.7 million for the three months ended September 30, 2022 and 2021, respectively. Salaries, benefits and payroll taxes increased to \$3.6 million for the three months ended September 30, 2022 as compared to \$2.5 million for the three months ended September 30, 2021, due primarily to accrued bonuses as management has reinstated a formal employee bonus plan based on company performance for 2022 and increased headcount to support higher sales volumes and our IPS business. Depreciation and amortization increased to \$0.6 million for the three months ended September 30, 2022 from \$0.4 million for the three months ended September 30, 2021, due to additional assets placed in service. Selling, general and administrative expenses were \$3.5 million for the three months ended September 30, 2022 compared to \$3.9 million for the three months ended September 30, 2021.

Other Income

In 2021 we qualified for federal government assistance through employee retention credit provisions of the Consolidated Appropriations Act of 2021. During the three months ended September 30, 2021, we recorded \$1.7 million in employee retention credits. We did not record any employee retention credits for the three months ended September 30, 2022.

Interest Expense, net

We incurred \$0.4 million and \$0.5 million of net interest expense for the three months ended September 30, 2022 and 2021, respectively.

Income Tax Expense (Benefit)

For the three months ended September 30, 2022 and 2021, our effective tax rate was approximately 23.6% and 2.3%, respectively, based on the annual effective tax rate net of discrete federal and state taxes. The computation of the effective tax rate includes modifications from the statutory rate such as income tax credits, tax depletion deduction, carrybacks, and state apportionment changes, among other items.

As of September 30, 2022, we have recorded a liability for uncertain tax positions included in deferred tax liabilities, long-term, net on our balance sheet, related to our depletion deduction methodology. As of September 30, 2022, we determined that it is more likely than not that we will not be able to fully realize the benefits of certain existing deductible temporary differences and have recorded a partial valuation allowance against the gross deferred tax assets, which is included in liabilities, long-term, net on our balance sheet, and a corresponding increase to the income tax expense on our condensed consolidated statement of operations.

Net Income (Loss)

Net income was \$2.7 million for the three months ended September 30, 2022 as compared to net loss of \$(7.3) million for the three months ended September 30, 2021. The improvement in net income in the current period relative to the prior period is primarily due to increased total volumes sold at higher average sales prices as increased demand has caused a positive shift in sand prices, partially offset by an increase in operating expenses.

SMART SAND, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(UNAUDITED)

Nine Months Ended September 30, 2022 Compared to Nine Months Ended September 30, 2021

The following table summarizes our revenue and expenses for the periods indicated.

	Nine Months Ended September 30,		Change	
	2022	2021	Dollars	Percentage
	(in thousands)			
Revenues:				
Sand sales revenue	\$ 172,063	\$ 83,291	88,772	107 %
Shortfall revenue	4,596	4,421	175	4 %
Logistics revenue	5,252	3,856	1,396	36 %
Total revenue	181,911	91,568	90,343	99 %
Cost of goods sold	163,492	100,952	62,540	62 %
Gross profit	18,419	(9,384)	27,803	296 %
Operating expenses:				
Salaries, benefits and payroll taxes	10,171	7,150	3,021	42 %
Depreciation and amortization	1,646	1,490	156	10 %
Selling, general and administrative	11,385	10,876	509	5 %
Bad debt expense	1	19,592	(19,591)	(100)%
Total operating expenses	23,203	39,108	(15,905)	(41)%
Operating income (loss)	(4,784)	(48,492)	43,708	90 %
Other income (expenses):				
Interest expense, net	(1,244)	(1,527)	283	19 %
Other income	416	5,457	(5,041)	(92)%
Total other income (expenses), net	(828)	3,930	(4,758)	(121)%
Loss before income tax benefit	(5,612)	(44,562)	38,950	87 %
Income tax benefit	(2,282)	(6,121)	3,839	63 %
Net income (loss)	\$ (3,330)	\$ (38,441)	\$ 35,111	91 %

Revenues

Revenues were \$181.9 million for the nine months ended September 30, 2022, during which time we sold approximately 3,158,000 tons of sand. Revenues for the nine months ended September 30, 2021 were \$91.6 million, during which time we sold approximately 2,317,000 tons of sand. The key factors contributing to the increase in revenues for the nine months ended September 30, 2022 as compared to the nine months ended September 30, 2021 were as follows:

- Sand sales revenue increased from \$83.3 million for the nine months ended September 30, 2021 to \$172.1 million for the nine months ended September 30, 2022 as a result of an approximately 36% increase in total volumes sold. In addition to an increase in our sales volumes, the 107% increase in our revenue is also attributable to higher average sale prices of our sand. Sand prices have increased due to a shift in supply and demand, which we believe is driven by increased prices in oil and natural gas leading to increased completion activity of new oil and natural gas wells.
- Logistics revenue, which includes freight for certain mine gate sand sales, logistics services, and SmartSystems rentals, was approximately \$5.3 million for the nine months ended September 30, 2022 compared to \$3.9 million for the nine months ended September 30, 2021. The increase in logistics revenue was due to higher utilization of our SmartSystems fleet.

SMART SAND, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(UNAUDITED)

Cost of Goods Sold

Cost of goods sold was \$163.5 million and \$101.0 million for the nine months ended September 30, 2022 and September 30, 2021, respectively. The increase was primarily due to higher volumes sold in the current period and the related increase in production costs and freight costs that accompany higher volumes, along with higher labor costs and utilities costs.

Gross Profit

Gross profit was \$18.4 million and \$(9.4) million for the nine months ended September 30, 2022 and September 30, 2021, respectively. The improvement in the gross profit for the nine months ended September 30, 2022 as compared to the nine months ended September 30, 2021 was primarily due to higher sales volumes and higher average sale prices of our sand relative to the cost to produce and deliver products to our customers.

Operating Expenses

Operating expenses were \$23.2 million and \$39.1 million for the nine months ended September 30, 2022 and September 30, 2021, respectively. Salaries, benefits and payroll taxes increased to \$10.2 million for the nine months ended September 30, 2022 as compared to \$7.2 million for the nine months ended September 30, 2021, due primarily to accrued bonuses as management has reinstated a formal employee bonus plan based on company performance for 2022 and increased staffing to support our IPS business. Depreciation and amortization increased slightly from \$1.5 million for the nine months ended September 30, 2021 to \$1.6 million for the nine months ended September 30, 2022. Selling, general and administrative expenses increased to \$11.4 million for the nine months ended September 30, 2022 compared to \$10.9 million for the nine months ended September 30, 2021, primarily driven by increased travel costs post-COVID-19, increased royalty expense due to higher total volumes sold and development costs related to our Waynesburg terminal. In the second quarter of 2021, we recorded a \$19.6 million non-cash charge related to the write-off of accounts receivable related to our legal settlement with U.S. Well Services, LLC. As part of the settlement we received \$35 million in cash.

Interest Expense, net

We incurred \$1.2 million and \$1.5 million of net interest expense for the nine months ended September 30, 2022 and September 30, 2021, respectively. We continue to reduce debt levels and decrease interest expense through scheduled amortizing payments.

Income Tax Benefit

For the nine months ended September 30, 2022 and September 30, 2021, our effective tax rate was approximately 40.7% and 13.7%, respectively, based on the annual effective tax rate net of discrete federal and state taxes. The computation of the effective tax rate includes modifications from the statutory rate such as income tax credits, tax depletion deduction, carrybacks, and state apportionment changes, among other items.

As of September 30, 2022, we have recorded a liability for uncertain tax positions included on our balance sheet, related to our depletion deduction methodology. As of September 30, 2022, we determined that it is more likely than not that we will not be able to fully realize the benefits of certain existing deductible temporary differences and have recorded a partial valuation allowance against the gross deferred tax assets, which is included in liabilities, long-term, net on our balance sheet, and a corresponding increase to the income tax expense on our condensed consolidated statement of operations.

Net Loss

Net loss was \$(3.3) million for the nine months ended September 30, 2022 as compared to net loss of \$(38.4) million for the nine months ended September 30, 2021. The decrease in net loss is attributable to an increase in total volumes sold and higher average sale prices of our sand in addition to non-cash bad debt expense recorded against the residual balance of accounts receivable that were previously the subject of litigation in the prior year.

Non-GAAP Financial Measures

Contribution margin, EBITDA, Adjusted EBITDA and free cash flow are not financial measures presented in accordance with GAAP. We believe that the presentation of these non-GAAP financial measures will provide useful information to

SMART SAND, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(UNAUDITED)

investors in assessing our financial condition and results of operations. Gross profit is the GAAP measure most directly comparable to contribution margin, net income is the GAAP measure most directly comparable to EBITDA and Adjusted EBITDA and net cash provided by operating activities is the GAAP measure most directly comparable to free cash flow. Our non-GAAP financial measures should not be considered as alternatives to the most directly comparable GAAP financial measures. Each of these non-GAAP financial measures has important limitations as analytical tools because they exclude some but not all items that affect the most directly comparable GAAP financial measures. You should not consider contribution margin, EBITDA, Adjusted EBITDA or free cash flow in isolation or as substitutes for an analysis of our results as reported under GAAP. Because contribution margin, EBITDA, Adjusted EBITDA and free cash flow may be defined differently by other companies in our industry, our definitions of these non-GAAP financial measures may not be comparable to similarly titled measures of other companies, thereby diminishing their utility.

Contribution Margin

We use contribution margin, which we define as total revenues less cost of goods sold excluding depreciation, depletion and accretion of asset retirement obligations, to measure our financial and operating performance. Contribution margin excludes other operating expenses and income, including costs not directly associated with the operations of our business such as accounting, human resources, information technology, legal, sales and other administrative activities.

We believe that reporting contribution margin and contribution margin per ton sold provides useful performance metrics to management and external users of our financial statements, such as investors and commercial banks, because these metrics provide an operating and financial measure of our ability, as a combined business, to generate margin in excess of our operating cost base.

Gross profit is the GAAP measure most directly comparable to contribution margin. Contribution margin should not be considered an alternative to gross profit presented in accordance with GAAP. Since contribution margin may be defined differently by other companies in our industry, our definition of contribution margin may not be comparable to similarly titled measures of other companies, thereby diminishing its utility. The following table presents a reconciliation of contribution margin to gross profit.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2022	2021	2022	2021
	(in thousands, except per ton amounts)			
Revenue	\$ 71,592	\$ 34,479	\$ 181,911	\$ 91,568
Cost of goods sold	60,163	36,526	163,492	100,952
Gross profit (loss)	11,429	(2,047)	18,419	(9,384)
Depreciation, depletion, and accretion of asset retirement obligations	6,340	6,145	18,854	18,009
Contribution margin	\$ 17,769	\$ 4,098	\$ 37,273	\$ 8,625
Contribution margin per ton	\$ 16.01	\$ 5.19	\$ 11.80	\$ 3.72
Total tons sold	1,110	790	3,158	2,317

Contribution margin was \$17.8 million and \$4.1 million, or \$16.01 and \$5.19 per ton sold, for the three months ended September 30, 2022 and 2021, respectively. For the nine months ended contribution margin was \$37.3 million and \$8.6 million, or \$11.80 and \$3.72 per ton sold, for the nine months ended September 30, 2022 and 2021, respectively. The increase in overall contribution margin and contribution margin per ton was due primarily to higher sales volumes and higher average sale prices relative to the cost to produce and deliver products to our customers, along with increased IPS sales and higher utilization of our SmartSystems fleet in the current period.

EBITDA and Adjusted EBITDA

We define EBITDA as net income, plus: (i) depreciation, depletion and amortization expense; (ii) income tax expense (benefit); (iii) interest expense; and (iv) franchise taxes. We define Adjusted EBITDA as EBITDA, plus: (i) gain or loss on sale of fixed assets or discontinued operations; (ii) integration and transition costs associated with specified transactions; (iii) equity

SMART SAND, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(UNAUDITED)

compensation; (iv) acquisition and development costs; (v) non-recurring cash charges related to restructuring, retention and other similar actions; (vi) earn-out, contingent consideration obligations and other acquisition and development costs; and (vii) non-cash charges and unusual or non-recurring charges. Adjusted EBITDA is used as a supplemental financial measure by management and by external users of our financial statements, such as investors and commercial banks, to assess:

- the financial performance of our assets without regard to the impact of financing methods, capital structure or historical cost basis of our assets;
- the viability of capital expenditure projects and the overall rates of return on alternative investment opportunities;
- our ability to incur and service debt and fund capital expenditures;
- our operating performance as compared to those of other companies in our industry without regard to the impact of financing methods or capital structure; and
- our debt covenant compliance, as Adjusted EBITDA is a key component of critical covenants to the ABL Credit Facility.

We believe that our presentation of EBITDA and Adjusted EBITDA will provide useful information to investors in assessing our financial condition and results of operations. Net income is the GAAP measure most directly comparable to EBITDA and Adjusted EBITDA. EBITDA and Adjusted EBITDA should not be considered alternatives to net income presented in accordance with GAAP. Because EBITDA and Adjusted EBITDA may be defined differently by other companies in our industry, our definitions of EBITDA and Adjusted EBITDA may not be comparable to similarly titled measures of other companies, thereby diminishing their utility. The following table presents a reconciliation of EBITDA and Adjusted EBITDA to net loss for each of the periods indicated.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2022	2021	2022	2021
	(in thousands)			
Net income (loss)	\$ 2,683	\$ (7,262)	\$ (3,330)	\$ (38,441)
Depreciation, depletion and amortization	6,705	6,165	19,931	18,941
Income tax expense (benefit)	831	(169)	(2,282)	(6,121)
Interest expense	431	484	1,282	1,554
Franchise taxes	77	42	268	237
EBITDA	\$ 10,727	\$ (740)	\$ 15,869	\$ (23,830)
(Gain) loss on sale of fixed assets	(466)	281	(482)	223
Equity compensation	713	784	2,023	2,050
Employee retention credit	—	(1,674)	—	(5,026)
Acquisition and development costs	97	—	434	17
Cash charges related to restructuring and retention of employees	31	8	137	9
Accretion of asset retirement obligations	189	332	569	558
Adjusted EBITDA	\$ 11,291	\$ (1,009)	\$ 18,550	\$ (25,999)

Adjusted EBITDA was \$11.3 million for the three months ended September 30, 2022 compared to \$(1.0) million for the three months ended September 30, 2021. Adjusted EBITDA was \$18.6 million for the nine months ended September 30, 2022 compared to \$(26.0) million for the nine months ended September 30, 2021. The increase in Adjusted EBITDA was primarily due to higher sales volumes, and higher average sale prices of our sand relative to the cost to produce and deliver products to our customers.

SMART SAND, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(UNAUDITED)

Free Cash Flow

Free cash flow, which we define as net cash provided by operating activities less purchases of property, plant and equipment, is used as a supplemental financial measure by our management and by external users of our financial statements, such as investors and commercial banks, to measure the liquidity of our business.

Net cash provided by operating activities is the GAAP measure most directly comparable to free cash flows. Free cash flows should not be considered an alternative to net cash provided by operating activities presented in accordance with GAAP. Because free cash flows may be defined differently by other companies in our industry, our definition of free cash flows may not be comparable to similarly titled measures of other companies, thereby diminishing its utility. The following table presents a reconciliation of free cash flows to net cash provided by operating activities.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2022	2021	2022	2021
	(in thousands, except per ton amounts)			
Net cash (used in) provided by operating activities	\$ 10,780	\$ 1,064	\$ (169)	\$ 37,544
Acquisition of Blair facility	—	—	(6,547)	—
Purchases of property, plant and equipment	(4,398)	(1,933)	(9,535)	(6,976)
Free cash flow	<u>\$ 6,382</u>	<u>\$ (869)</u>	<u>\$ (16,251)</u>	<u>\$ 30,568</u>

Free cash flow was \$6.4 million for the three months ended September 30, 2022 compared to \$(0.9) million for the three months ended September 30, 2021. The increase in free cash flow was primarily attributable to cash collections from customers on positive results of operations and measured spending during the quarter. Free cash flow was \$(16.3) million for the nine months ended September 30, 2022 compared to \$30.6 million for the nine months ended September 30, 2021. The decrease in free cash flow was primarily attributable to purchase of Blair for \$6.5 million, increase in accounts receivable, repayment of tax refund IRS mistakenly provided in prior period of \$2.3 million, and increase in unbilled receivables in the nine months ended September 30, 2022 compared to the nine months ended September 30, 2021. We expect that the investments made in the current period will be cash-generating assets in the future.

Liquidity and Capital Resources

Our primary sources of liquidity are cash flow generated from operations and availability under our ABL Credit Facility and other equipment financing sources. As of September 30, 2022, cash on hand was \$10.4 million and we had \$13.0 million in undrawn availability on our ABL Credit Facility.

Based on our balance sheet, cash flows, current market conditions, and information available to us at this time, we believe that we have sufficient liquidity and other available capital resources, to meet our cash needs for the next twelve months.

Material Cash Requirements

Capital Requirements

We expect full year 2022 capital expenditures, including amounts relating to the acquisition of the Blair facility, to be between \$20.0 million and \$25.0 million, which we anticipate will primarily support efficiency projects at Oakdale and Utica and capital related to the Waynesburg terminal. We expect to fund these capital expenditures with cash from operations, equipment financing options available to us or borrowings under the ABL Credit Facility or other financing sources, such as equipment finance providers. For the nine months ended September 30, 2022, we spent approximately \$9.5 million on capital expenditures and \$6.5 million on the acquisition of the Blair facility.

SMART SAND, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(UNAUDITED)

Indebtedness

Our debt facilities include the Oakdale Equipment Financing, various notes payable and our ABL Credit Facility. Our Oakdale Equipment Financing is secured by substantially all of the assets at our Oakdale facility. The balance on this facility as of September 30, 2022 was \$12.7 million. Minimum cash payments on this facility for the remainder of 2022 are anticipated to be \$1.2 million. Our various notes payable are primarily secured by our manufactured SmartSystems equipment. Total debt under these notes payable as of September 30, 2022 was \$3.8 million. Minimum cash payments on these notes payable for the remainder of 2022 are anticipated to be \$0.7 million. There was \$6.0 million outstanding on our ABL Credit Facility as of September 30, 2022.

Operating Leases

We use leases primarily to procure certain office space, railcars and heavy equipment as part of our operations. The majority of our lease payments are fixed and determinable. Our operating lease liabilities as of September 30, 2022 were \$30.5 million. Minimum cash payments on operating leases for the remainder of 2022 are anticipated to be \$2.5 million.

Mineral Rights Property

The Company is obligated under certain contracts for minimum payments for the right to use land for extractive activities. The annual minimum payments under these contracts are approximately \$2.5 million per year in the aggregate for the next 15 years.

Off-Balance Sheet Arrangements

We had outstanding performance bonds of \$17.7 million and \$8.6 million at September 30, 2022 and December 31, 2021, respectively. The increase in performance bonds is due primarily to the acquisition of the Blair facility and the assumption of performance bonds related to its potential future reclamation obligations.

Contractual Obligations

As of September 30, 2022, we had contractual obligations for the ABL Credit Facility, Oakdale Equipment Financing, notes payable, operating and finance leases, minimum payments for the rights to mine land, capital expenditures, asset retirement obligations, and other commitments to municipalities for maintenance.

Environmental Matters

We are subject to various federal, state and local laws and regulations governing, among other things, hazardous materials, air and water emissions, environmental contamination and reclamation and the protection of the environment and natural resources. We have made, and expect to make in the future, expenditures to comply with such laws and regulations, but cannot predict the full amount of such future expenditures.

Seasonality

Our business is affected to some extent by seasonal fluctuations in weather that impact the production levels for a portion of our wet sand processing capacity. While our dry plants are able to process finished product volumes evenly throughout the year, our excavation and our wet sand processing activities have historically been limited during winter months. As a consequence, we have experienced lower cash operating costs in the first and fourth quarter of each calendar year, and higher cash operating costs in the second and third quarter of each calendar year when we overproduced to meet demand in the winter months. These higher cash operating costs were capitalized into inventory and expensed when these tons are sold, which can lead to us having higher overall cost of production in the first and fourth quarters of each calendar year as we expense inventory costs that were previously capitalized. We have indoor wet processing facilities at each of our plant locations, which allow us to produce wet sand inventory year-round to support a portion of our dry sand processing capacity, which may reduce certain of the effects of this seasonality. We may also sell frac sand for use in oil and natural gas producing basins where severe weather

SMART SAND, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(UNAUDITED)

conditions may curtail drilling activities and, as a result, our sales volumes to those areas may be reduced during such severe weather periods.

Customer Concentration

For the nine months ended September 30, 2022, revenue from EQT Production Corporation, Halliburton Energy Services, Encino Energy, and Liberty Oilfield Services accounted for 22.5%, 16.1%, 13.4%, and 13.0%, respectively, of total revenue. For the nine months ended September 30, 2021, EQT Production Corporation, Halliburton Energy Services, Liberty Oilfield Services, and Enerplus Resources Corporation accounted for 26.1%, 18.2%, 13.0%, and 10.6%, respectively, of total revenue.

Critical Accounting Policies and Estimates

There have been no material changes in our critical accounting policies and procedures during the nine months ended September 30, 2022.

Use of Estimates

The preparation of interim statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates used in the preparation of these financial statements include, but are not limited to: impairment considerations of assets, including intangible assets, fixed assets, and inventory; estimated cost of future asset retirement obligations; fair values of acquired assets and assumed liabilities; recoverability of deferred tax assets; inventory reserve; and the collectability of receivables; and certain liabilities.

Actual results could differ from management's best estimates as additional information or actual results become available in the future, and those differences could be material. The decreases in demand related to COVID-19 pandemic in 2020 and 2021 and the ongoing conflict in Ukraine have caused dramatic swings in oil and natural gas prices and significant volatility in the oilfield service sector. Additionally, future economic performance is uncertain due to current high inflation and other economic concerns. We continue to actively monitor the global impact of current events, but we are currently unable to estimate the impact of these events on our future financial position and results of operations or give any assurances that these events will not have a material adverse effect on our financial position or results of operations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

The majority of our debt is financed under fixed interest rates. Borrowings under the ABL Credit Facility bear interest at a rate per annum equal to an applicable margin, plus, at our option, either a LIBOR rate or an alternate base rate (“ABR”). The applicable margin is 2.00% for LIBOR loans and 1.00% for ABR loans. The outstanding balance under our ABL Credit Facility as of September 30, 2022 was \$6.0 million. We do not believe this represents a material interest rate risk.

We have considered other changes in our exposure to market risks during the nine months ended September 30, 2022 and have determined that there have been no additional material changes to our exposure to market risks from those described in our Annual Report on Form 10-K for the year ended December 31, 2021, filed with the SEC on March 8, 2022.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this Report. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that as of such date, our disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

There have been no changes in internal control over financial reporting for the quarter ended September 30, 2022 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time we may be involved in litigation relating to claims arising out of our operations in the normal course of business. The disclosure called for by Part II, Item 1 regarding our legal proceedings is incorporated by reference herein from Part I, Item 1. Note 15 - Commitments and Contingencies - Litigation of the notes to the condensed consolidated financial statements in this Form 10-Q for the three and nine months ended September 30, 2022.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors described in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2021.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the quarter ended September 30, 2022, no shares were sold by the Company without registration under the Securities Act of 1933, as amended.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

We are committed to maintaining a culture that prioritizes mine safety. We believe that our commitment to safety, the environment and the communities in which we operate is critical to the success of our business. Our sand mining operations are subject to mining safety regulation. The U.S. Mining Safety and Health Administration (“MSHA”) is the primary regulatory organization governing frac sand mining and processing. Accordingly, MSHA regulates quarries, surface mines, underground mines and the industrial mineral processing facilities associated with and located at quarries and mines. The mission of MSHA is to administer the provisions of the Federal Mine Safety and Health Act of 1977 and to enforce compliance with mandatory miner safety and health standards. As part of MSHA’s oversight, representatives perform at least two unannounced inspections annually for each above-ground facility.

We are also subject to regulations by the U.S. Occupational Safety and Health Administration, which has promulgated rules for workplace exposure to respirable silica for several other industries. Respirable silica is a known health hazard for workers exposed over long periods. MSHA is expected to adopt similar rules as part of its “Long Term Items” for rulemaking. Airborne respirable silica is associated with work areas at our site and is monitored closely through routine testing and MSHA inspection. If the workplace exposure limit is lowered significantly, we may be required to incur certain capital expenditures for equipment to reduce this exposure.

Our operations are subject to the Federal Mine Safety and Health Act of 1977, as amended by the Mine Improvement and New Emergency Response Act of 2006, which imposes stringent health and safety standards on numerous aspects of mineral extraction and processing operations, including the training of personnel, operating procedures, operating equipment, and other matters. Our failure to comply with such standards, or changes in such standards or the interpretation or enforcement thereof, could have a material adverse effect on our business and financial condition or otherwise impose significant restrictions on our ability to conduct mineral extraction and processing operations. Following passage of The Mine Improvement and New Emergency Response Act of 2006, MSHA significantly increased the numbers of citations and orders charged against mining operations. The dollar penalties assessed for citations issued has also increased in recent years. Information concerning mine safety violations or other regulatory matters required by Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of Regulation S-K (17 CFR 229.104) is included in Exhibit 95.1 to this Report.

ITEM 5. OTHER INFORMATION

None.

THIRD AMENDMENT TO ABL CREDIT AGREEMENT

This **THIRD AMENDMENT TO ABL CREDIT AGREEMENT**, dated as of July 22, 2022 (this “**Amendment**”), is entered into by and among SMART SAND, INC., a Delaware corporation (“**Parent**”), the other Borrowers party hereto, each Guarantor party hereto, the Lenders party hereto, and JEFFERIES FINANCE LLC, as agent (in such capacity, including any successor thereto, the “**Agent**”) for the Lenders, and is made with reference to the Credit Agreement referred to below.

PRELIMINARY STATEMENTS

WHEREAS, Parent, the other Borrowers party hereto, the Guarantors party hereto, the Agent and the Lenders have entered into that certain ABL Credit Agreement dated as of December 13, 2019, as amended by that certain First Amendment to ABL Credit Agreement dated as of July 8, 2020 and that certain Second Amendment to ABL Credit Agreement dated as of September 18, 2020 (as may be further amended, amended and restated, supplemented or otherwise modified prior to the date hereof, the “**Credit Agreement**”);

WHEREAS, Borrowers have requested that the Agent and the Lenders make certain amendments to the Credit Agreement which the Agent and the Lenders have agreed to make, subject to the terms and provisions set forth in this Amendment.

NOW, THEREFORE, in consideration of the premises and the agreements, provisions and covenants herein contained, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto hereby agree as follows:

SECTION 1. Definitions. Except as otherwise defined herein, capitalized terms used but not defined herein shall have the meanings assigned to such terms in the Credit Agreement.

SECTION 2. Additional Definitions. Section 1.01 to the Credit Agreement is hereby amended by adding thereto, in addition and not in limitation, the following defined terms:

(a) “**Amendment No. 3**” shall mean the Third Amendment to ABL Credit Agreement, dated as of July __, 2022, by and among the Borrowers party thereto, the Guarantors party thereto, the Agent and the Lenders party thereto.

(b) “**Amendment No. 3 Effective Date**” shall mean July 22, 2022.

SECTION 3. Amendments to Section 6.05(b). Section 6.05(b) of the Credit Agreement is hereby amended by deleting the word “and” at the end of clause (v), replacing the period at the end of clause (vi) with “; and”, and adding a new clause (vii) as follows:

“(vii) any Asset Sale consisting of the issuance or sale of Equity Interests to a Person in connection with any transaction otherwise permitted under this Agreement so long as, after giving effect thereto, no Change of Control shall occur.”

SECTION 4. Conditions to Effectiveness. This Amendment shall become effective only upon the satisfaction of all of the following conditions precedent:

(c) The execution and delivery of this Amendment by the Agent, the Lenders and each Loan Party; and

(d) Borrowers shall have paid to the Agent all fees, costs and expenses incurred by the Agent in connection with the preparation, execution and delivery of this Amendment (including, without limitation, reasonable attorneys' fees).

SECTION 5. Representations and Warranties. In order to induce the Agent and the Lenders to enter into this Amendment and to amend the Credit Agreement in the manner provided herein, each Loan Party hereby represents and warrants to the Agent and the Lenders that, on and as of the Amendment No. 3 Effective Date:

(e) (i) each Loan Party has the power and authority to execute, deliver this Amendment and perform its obligations under this Amendment and the Credit Agreement, (ii) this Amendment has been duly authorized by all requisite corporate, partnership, limited liability company, and, if required, stockholder, partner or member action, as applicable, of each Loan Party, and (iii) this Amendment has been duly executed and delivered by each Loan Party;

(f) this Amendment constitutes a legal, valid and binding obligation of each Loan Party enforceable against such Loan Party in accordance with its terms, subject to applicable bankruptcy, insolvency, reorganization, moratorium or other similar laws affecting creditors' rights generally and subject to general principles of equity, regardless of whether considered in a proceeding in equity or at law;

(g) each Loan Party's execution, delivery and performance of this Amendment and each Loan Party's performance of the Credit Agreement (i) will not violate any provision of the certificate or articles of incorporation or certificate of formation or other constitutive documents or by-laws, partnership agreement or limited liability company agreement of such Loan Party, (ii) (A) any provision of law, statute, rule or regulation, (B) any order of or undertaking with any Governmental Authority or (C) any provision of any indenture, agreement or other instrument to which any Loan Party is a party or by which any of them or any of their property is bound, except such violation as could not reasonably be expected to have a Material Adverse Effect, (iii) will not be in conflict with, result in a breach of or constitute (alone or with notice or lapse of time or both) a default under, or give rise to any right to accelerate or to require the prepayment, repurchase or redemption of any obligation under any such indenture, agreement or other instrument, except where the consequences thereof could not reasonably be expected to have a Material Adverse Effect, or (iv) will not require any consent or approval of, registration or filing with, certificate, certification, permit, license or authorization from, or any other action by any Governmental Authority, in each case, except for (A) such as have been made or obtained and are in full force and effect and (B) those, which the failure to obtain could not reasonably be expected to have a Material Adverse Effect;

(h) at the time of and immediately after giving effect to this Amendment, no Default or Event of Default has occurred and is continuing or would result therefrom; and

(i) the representations and warranties set forth in Article III of the Credit Agreement and in each other Loan Document are true and correct in all material respects on and as of the Amendment No. 3 Effective Date with the same effect as though made on and as of such date, except to the extent such representations and warranties expressly relate to an earlier date, in which case such representations and warranties were true and correct in all material respects as of such earlier date; *provided* that any representation and warranty that is qualified as to "materiality," "Material Adverse Effect" or similar language is (or was) true and correct (after giving effect to any qualification contained therein) in all respects.

SECTION 6. Reference to and Effect on the Credit Agreement.

(j) Except as expressly set forth herein, this Amendment shall not by implication or otherwise limit, impair, constitute a waiver of or otherwise affect the rights and remedies of the Agent, any Lender or any Secured Party under the Credit Agreement or any Loan Documents, and shall not alter, modify, amend or in any way affect any of the Obligations or any of the terms, conditions, obligations, covenants or agreements contained in the Credit Agreement or any other provision of the Credit Agreement or of any Loan Documents, all of which are ratified and affirmed in all respects and shall continue in full force and effect. Nothing herein shall be deemed to entitle any Loan Party to a consent to, or a waiver, amendment, modification or other change of, any of the Obligations or any of the terms, conditions, obligations, covenants or agreements contained in the Credit Agreement or any Loan Documents in similar or different circumstances.

(k) On the Amendment No. 3 Effective Date, the Credit Agreement shall be amended as provided herein. On and after the Amendment No. 3 Effective Date, each reference in the Credit Agreement to “this Agreement,” “hereunder,” “hereof,” “herein” or words of like import referring to the Credit Agreement, and each reference in the Loan Documents to the “Credit Agreement,” “thereunder,” “thereof” or words of like import referring to the Credit Agreement shall mean and be a reference to the Credit Agreement as amended by this Amendment. The parties hereto acknowledge and agree that: (i) this Amendment and any other document or instrument executed and delivered in connection herewith do not constitute a novation or termination of the Obligations as in effect prior to the Amendment No. 3 Effective Date; (ii) the Obligations are in all respects continuing with only the terms thereof being modified to the extent provided in this Amendment; and (iii) the guarantees and the Liens and security interests as granted or purported to be granted under or pursuant to the Credit Agreement and the Loan Documents securing payment of the Obligations are in all such respects continuing in full force and effect and secure the payment of the Obligations as provided therein.

SECTION 7. Severability. In the event any one or more of the provisions contained in this Amendment should be held invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions contained herein shall not in any way be affected or impaired thereby (it being understood that the invalidity of a particular provision in a particular jurisdiction shall not in and of itself affect the validity of such provision in any other jurisdiction). The parties shall endeavor in good-faith negotiations to replace the invalid, illegal or unenforceable provisions with valid provisions the economic effect of which comes as close as possible to that of the invalid, illegal or unenforceable provisions.

SECTION 8. Counterparts. This Amendment may be executed in counterparts (and by different parties hereto on different counterparts), each of which shall constitute an original but all of which when taken together shall constitute a single contract and shall become effective as provided in Section 6. Delivery of an executed signature page to this Amendment by facsimile or other customary means of electronic transmission, including by PDF file, shall be as effective as delivery of a manually signed counterpart of this Agreement.

SECTION 9. Successors and Assigns. Whenever in this Amendment any of the parties hereto is referred to, such reference shall be deemed to include the permitted successors and assigns of such party; and all covenants, promises and agreements by or on behalf of Loan Parties, the Agent, the Issuing Banks or the Lenders that are contained in this Amendment shall bind and inure to the benefit of their respective permitted successors and assigns.

SECTION 10. Governing Law; Miscellaneous. This Amendment, and the rights and obligations of the parties under this Amendment, shall be governed by, and construed and interpreted in accordance with, the law of the State of New York. The provisions of Sections 9.07, 9.11 and 9.15 of the Credit Agreement are hereby incorporated by reference, *mutatis mutandis*, and shall apply with like effect to this Amendment as if fully set forth herein.

SECTION 11. **Headings.** Section headings used herein are for convenience of reference only, are not part of this Amendment and are not to affect the construction of, or to be taken into consideration in interpreting, this Amendment.

[Signature Pages Follow]

IN WITNESS WHEREOF, the parties hereto have caused this Amendment to be duly executed and delivered by their respective duly authorized officers as of the day and year first above written.

CERTIFICATION BY PRINCIPAL EXECUTIVE OFFICER

I, Charles E. Young, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Smart Sand, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION BY PRINCIPAL FINANCIAL OFFICER

I, Lee E. Beckelman, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Smart Sand, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

MINE SAFETY DISCLOSURES

The following disclosures are provided pursuant to Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Act”) and Item 104 of Regulation S-K, which requires certain disclosures by companies required to file periodic reports under the Securities Exchange Act of 1934, as amended, that operate mines regulated under the Federal Mine Safety and Health Act of 1977 (the “Mine Act”).

Mine Safety Information

Whenever the Federal Mine Safety and Health Administration (“MSHA”) believes a violation of the Mine Act, any health or safety standard or any regulation has occurred, it may issue a citation which describes the alleged violation and fixes a time within which the U.S. mining operator must abate the alleged violation. In some situations, such as when MSHA believes that conditions pose a hazard to miners, MSHA may issue an order removing miners from the area of the mine affected by the condition until the alleged hazards are corrected. When MSHA issues a citation or order, it generally proposes a civil penalty, or fine, as a result of the alleged violation, that the operator is ordered to pay. Citations and orders can be contested and appealed, and as part of that process, may be reduced in severity and amount, and are sometimes dismissed. The number of citations, orders and proposed assessments vary depending on the size and type (underground or surface) of the mine as well as by the MSHA inspector(s) assigned.

Mine Safety Data

The following provides additional information about references used in the table below to describe the categories of violations, orders or citations issued by MSHA under the Mine Act:

- *Section 104 S&S Citations:* Citations received from MSHA under section 104 of the Mine Act for violations of mandatory health or safety standards that could significantly and substantially contribute to the cause and effect of a mine safety or health hazard.
- *Section 104(b) Orders:* Orders issued by MSHA under section 104(b) of the Mine Act, which represents a failure to abate a citation under section 104(a) within the period of time prescribed by MSHA. This results in an order of immediate withdrawal from the area of the mine affected by the condition until MSHA determines that the violation has been abated.
- *Section 104(d) Citations and Orders:* Citations and orders issued by MSHA under section 104(d) of the Mine Act for an unwarrantable failure to comply with mandatory health or safety standards.
- *Section 110(b)(2) Violations:* Flagrant violations issued by MSHA under section 110(b)(2) of the Mine Act.
- *Section 107(a) Orders:* Orders issued by MSHA under section 107(a) of the Mine Act for situations in which MSHA determined an “imminent danger” (as defined by MSHA) existed.

Pattern or Potential Pattern of Violations

The following provides additional information about references used in the table below to describe elevated pattern of violation enforcement actions taken by MSHA under the Mine Act:

- *Pattern of Violations:* A pattern of violations of mandatory health or safety standards that are of such nature as could have significantly and substantially contributed to the cause and effect of mine health or safety hazards under section 104(e) of the Mine Act.
- *Potential Pattern of Violations:* The potential to have a pattern of violations under section 104(e).

Pending Legal Actions

The following provides additional information of the types of proceedings brought before the Federal Mine Safety and Health Review Commission (“FMSHRC”):

- *Contest Proceedings:* A contest proceeding may be filed by an operator to challenge the issuance of a citation or order issued by MSHA.
- *Civil Penalty Proceedings:* A civil penalty proceeding may be filed by an operator to challenge a civil penalty MSHA has proposed for a violation contained in a citation or order. The operator does not institute civil penalty proceedings based solely on the assessment amount of proposed penalties. Any initiated adjudications address substantive matters of law and policy instituted on conditions that are alleged to be in violation of mandatory standards of the Mine Act.
- *Discrimination Proceedings:* Involves a miner's allegation that he or she has suffered adverse employment action because he or she engaged in activity protected under the Mine Act, such as making a safety complaint. Also includes temporary reinstatement proceedings involving cases in which a miner has filed a complaint with MSHA stating that he or she has suffered discrimination and the miner has lost his or her position.
- *Compensation Proceedings:* A compensation proceeding may be filed by miners entitled to compensation when a mine is closed by certain closure orders issued by MSHA. The purpose of the proceeding is to determine the amount of compensation, if any, due to miners idled by the orders.
- *Temporary Relief:* Applications for temporary relief are applications filed under section 105(b)(2) of the Mine Act for temporary relief from any modification or termination of any order.
- *Appeals:* An appeal may be filed by an operator to challenge judges' decisions or orders to the Commission, including petitions for discretionary review and review by the Commission on its own motion.

For the Three Months Ended September 30, 2022:

Mine (1)	Oakdale, WI 4703625	Barron, WI 4703646	Barron, WI 4703740	Taylor, WI 4703759	Ottawa, IL 1103253

Total pending legal actions (#)	1	—	—	—	—

(1) The definition of mine under section 3 of the Mine Act includes the mine, as well as other items used in, or to be used in, or resulting from, the work of extracting minerals, such as land, structures, facilities, equipment, machines, tools and minerals preparation facilities. Unless otherwise indicated, any of these other items associated with a single mine have been aggregated in the totals for that mine. MSHA assigns an identification number to each mine and may or may not assign separate identification numbers to related facilities such as preparation facilities. We are providing the information in the table by mine rather than MSHA identification number because that is how we manage and operate our mining business and we believe this presentation will be more useful to investors than providing information based on MSHA identification numbers.

(2) Represents the total dollar value of the proposed assessments from MSHA under the Mine Act, for the three months preceding September 30, 2022, for all citations / orders assessed, not just those disclosed in the rows preceding such dollar value.
